	Manufacturer (non-EU):	Not A	pplicat	ble			
1.4 Emergency Telephone							
	Number:	+44	1254 4	60124			

SECTION 2: Hazards identification

This product is not classified as hazardous, hence classification according to Regulation (EC) No 1272/2008 and its amendments is not applicable. Safety Data Sheets, in accordance with Annex II and Article 32 of Regulation EC 19072006, do not have to be provided for non-hazardous products, however this information is provided as a courtesy to our customers in a similar format.

2.1 Classification of the substance or mixture

2.1.1 Classification according to Regulation (EC) No 1272/2008 (including amendments): None

2.2 Label elements:

Labelling according to Regulation (EC) No 1272/2008 [CLP]: Hazard pictograms: None Signal word: None

Pinkman 0mg

Date of issue: 17 May 2017

- Version No.: 2
- Revision No.: 1

Hazard statements:	None
Precautionary statements:	
Prevention:	None.
Response:	None
Storage:	None
Disposal:	None.

For full H-Statements regarding this product refer to Section 16.

2.3 Other hazards:

None

2.4 Additional information:

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

Description of mixture: E-Liquid for electronic cigarettes, consumer use. No Hazardous ingredients

Ingredients not listed are either classified as non-hazardous or are present at concentrations below reportable levels.

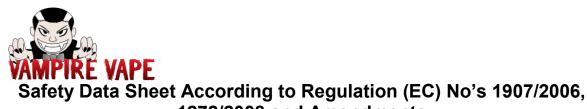

No REACH registration numbers are provided either because the mixture contains preregistered phase-in substances and the transition period for their registration according to Article 23 of REACH has not yet expired or because the annual tonnages do not require a REACH registration.

SECTION 4: First aid measures

4.1 Description of first aid measures

Ingestion: DO NOT induce vomiting. Never give anything to an unconscious person. Rinse mouth with water. Get medical advice/attention should symptoms appear.

Skin contact: Immediately flush skin with plenty of soap and water whilst removing contaminated clothing. Seek medical attention if irritation persists.

1

Version No.: 2

Revision No.:

Eye contact: Immediately flush eyes (holding eyelids apart) with plenty of water for at least 15 minutes. Seek medical attention if irritation persists.

1272/2008 and Amendments Pinkman 0mg

- Inhalation:Remove from exposure site to fresh air and keep at rest. If
breathing has stopped give artificial respiration. Observe for
possible delayed reaction. Get medical advice/attention if
concerned.First Aider
- Protection: Avoid skin/eye contact/inhalation and ingestion during treatment process.

4.2 Most important symptoms and effects, both acute and delayed

General advice:	Consult a physician. Show this safety data sheet to medical personnel.
Ingestion:	May cause stomach distress, nausea or vomiting. If ingested, immediately call a poison control centre or doctor.
Skin contact:	May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
Eye contact:	May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.
Inhalation	May cause respiratory tract irritation.

4.3 Indication of any immediate medical attention and special treatment needed. Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable Extinguishing Media: Carbon dioxide, Alcohol foam, dry chemical or water spray/mist.

Unsuitable Extinguishing Media: None

5.2 Special hazards arising from the substance or mixture

During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion.

5.3 Advice for fire-fighters

Wear full protective clothing and self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent).

- Version No.: 2
 - Revision No.: 1

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency measures

6.1.1 For non-emergency personnel

- Wear proper personal protective equipment as stated in section 8.
- Avoid breathing vapours, mist or gas. Do not ingest.
- Avoid contact with skin and eyes.
- Eliminate all sources of ignition and ensure adequate ventilation of area.

1272/2008 and Amendments Pinkman 0mg

- Beware of vapours accumulation to form explosive concentrations.
- Vapours can accumulate in low areas.
- For details of protective equipment, see Section 8.

6.1.2 For emergency responders

- Wear self-contained breathing apparatus.
- Wear full protective clothing.
- For details of protective equipment, see Section 8.

6.2 Environmental precautions

- Prevent further leakage or spillage if safe to do so.
- Prevent spills or contaminated rinse water from entering sewers or watercourses.

6.3 Methods and material for containment and cleaning up

6.3.1 For containment

- Stop leakage if safe to do so.
- In case of small spills, absorb with inert materials such as earth or dry sand then shovel into a chemical waste container.
- In case of large spills, dike the spill, if possible.
- Place any absorbents in suitable chemical waste container.
- Call emergency services if necessary.

6.3.2 For cleaning up

- Absorb the chemical then place in a chemical waste container.

6.4 Reference to other sections

For personal protection, see Section 8. For disposal of waste from clean-up operations, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Wear proper protective equipment and avoid contact with skin, eyes, or clothing. Obtain special instructions before use.
- Avoid inhalation and ingestion.
- Avoid inhalation of vapour or mist.
- When using this product do not eat, drink or smoke.

- Version No.: 2
- Revision No.: 1
- Wash hands thoroughly after handling this material.
- Follow all applicable local regulations for handling and storage.

1272/2008 and Amendments Pinkman 0mg

7.2 Conditions for safe storage, including any incompatibilities

- Keep out of reach of children.
- Store in a well ventilated place.
- Keep container tightly closed (air sensitive), in a cool dry place.
- Containers that are opened must be carefully resealed and kept upright to prevent leakage.
- Keep away from heat and sources of ignition.

7.3 Specific end use(s)

None. The material is safe to use as intended.

SECTION 8: Exposure controls/personal protection

8.1 **Control parameters**

8.1.1 **Occupational Exposure Limits:**

CAS No.	56-81-5						
Substance	Glycerin, mist						
	Limit value	- Eight hours	Limit value - Short term				
	ppm mg/m³		ppm	mg/m³			
France	-	10	-	-			
Germany (AGS)	-	50 inhalable aerosol	-	100 inhalable aerosol			
United Kingdom	- 10		-	-			

France: Indicative statutory limit values

8.1.2 **Biological Limit Value:** No data available for the product.

No data available for the product.

PNECs and DNELs: 8.2 Exposure controls

8.1.3

8.2.1 Appropriate engineering controls

Always provide adequate ventilation where this chemical/material is used.

8.2.2 Individual protection measures, such as personal protective equipment

Respiratory protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the

1272/2008 and Amendments

Pinkman 0mg

Date of issue: 17 May 2017

2

Version No.:

Revision No.: 1

respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as CEN (EU).

- Use only respiratory protection that conforms to EN149 as minimum standard.
- Eye protection: Face shield and safety glasses or goggles EN166 as minimum standard.
- Skin protection: Handle with gloves, EN374 as minimum standard. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
- Hygiene measures:Provide good personal hygiene after handling.
Avoid contact with skin, eyes and clothing.
Wash hands before breaks and immediately after handling the
product.
Do not eat, drink or smoke whilst using this product

8.2.3 Environmental exposure controls

Do not allow to enter drains, sewers or watercourses.

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties				
	Appearance:	Liquid			
	Colour:	Light pink			
	Odour:	No data available			
	Odour threshold:	No data available			
	pH:	No data available			
	Melting/freezing point:	No data available			
	Initial boiling point and boiling				
	range:	No data available			
	Flash point:	No data available			
	Evaporation rate:	No data available			
	Flammability:	No data available			
	Upper/lower flammability or				
	explosive limits:	No data available			
	Vapour pressure:	No data available			
	Vapour density:	No data available			

Pinkman 0mg

Date of issue: 17 May 2017

Version No.: 2 Revision No.: 1

Relative density (water=1):	No data available
Solubility(ie's):	No data available
Partition coefficient (n-octanol/water):	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity:	No data available
Explosive properties:	No data available
Oxidising properties:	No data available

9.2 Other information

No data available

SECTION 10: Stability and reactivity

- **10.1 Reactivity** Not reactive. Liquid may darken with prolonged storage.
- **10.2** Chemical stability Stable under normal storage/handling conditions.
- **10.3.1 Possibility of hazardous reactions** Will not occur.
- **10.4** Conditions to avoid Keep away from heat/sparks/open flames/hot surfaces.
- **10.5** Incompatible materials None.
- **10.6 Hazardous decomposition products** May include, and are not limited to oxides of carbon.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

No data are available for the product therefore available data for the components of the product are provided below.

Acute toxicity:	Not classified.	
Glycerin, mist component:	LD50 27200 mg/kg bw (oral; gavage, female rat, standard acute method).	
	L(ct)50 (7h) 4655 mg/min/L (inhalation; vapour, whole body, male rat, standard acute method).	
	LD50 56750 mg/kg (dermal; semi occlusive, male/female guinea pig, standard acute method).	

Pinkman 0mg

Date of issue: 17 May 2017

Version No.: 2 Revision No.: 1

Skin corrosion/irritation:	Not classified.			
Glycerin, mist component:	Not Irritating (rabbit)			
Serious eye damage/ irritation:	Not classified.			
Glycerin, mist component:	Not Irritating (rabbit).			
Respiratory or skin sensitisation:	Not classified.			
Respiratory:	No data available.			
Skin:	Not classified.			
Germ cell mutagenicity:	Not classified.			
Glycerin mist component:	Negative results. (DNA damage &/or repair OECD Guideline 482. Chromosome aberration (CHO) OECD guideline 473. Mammalian cell gene mutation assay (CHO) OECD guideline 476).			
Carcinogenicity:	Not classified.			
Glycerin, mist component:	Administration for up to two years in the diet did not result in an increase in tumor formation. (oral; feed, male/female rat)			
Reproductive toxicity:	Not classified.			
Glycerin, mist component:	No noted effects on growth, fertility and reproductive performance through two generations (oral; gavage, male/female rat, 2- generation study). NOAEL (maternal toxicity/developmental toxicity)			
	1310 mg/kg bw/day (oral; gavage, rat). No effects in animals or offspring of dams dosed.			
STOT-single exposure:	No data available			
STOT-repeated exposure: Glycerin, mist component:	Not classified. NOAEL 8000-10000 mg/kg bw (oral; feed, male/female rat, 48m). NAOEL 167 mg/m3 air (inhalation; vapour, nose only, male/female rat, 13w). Local irritant effects in the upper respiratory tract.			
Aspiration hazard:	No data available.			
11.2 Other information:	None			

- Version No.: 2
 - Revision No.: 1

SECTION 12: Ecological information

12.1 Toxicity

No data are available for the product therefore available data for the components of the product are provided below.

Not classified

Pinkman 0mg

Hazards to aquatic environment:

Glycerin, mist component:

12.2 Persistence and degradability Glycerin, mist component:

Readily biodegradable: Nearly completely degraded within 24 hours).

LC50 1955 mg/L (48h: Daphnia magna)

LC50 54000 mg/L (96h: Oncorhynchus mykiss);

- **12.3 Bioaccumulative potential** No data available.
- **12.4.** Mobility in soil No data available.
- **12.5.** Results of PBT and vPvB assessment An assessment has not been conducted on the product. However, there are no indications that this product contains substances likely to be classified as PBT or vPvB.

12.6. Other adverse effects

No data available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

13.1.1 Residual wastes

Dispose of in accordance with local/national regulations.

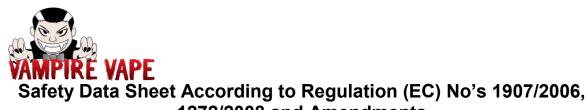

Avoid disposing into drainage systems and into the environment.

This combustible material may be burned in a chemical incinerator equipped with afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to a dispose of this material.

13.1.2 Contaminated containers and packaging

Dispose of soiled containers in accordance with local/national regulations.

13.2 Other information: None

Version No.: 2

Revision No.: 1

3EC	TION 14: Transport information

Supplier's data/information

Other information

The data given here is based on current knowledge and experience. The purpose of this Safety Data Sheet is to describe the products in terms of their safety requirements. The data does not signify any warranty with regard to the products' properties.

1272/2008 and Amendments Pinkman 0mg

Abbreviations:

BCF: Bioaccumulation factor bw: Body weight QSAR: Quantitative structure–activity relationship Repr. 2: Reproductive toxicant category 2 STOT RE 2: Specific target organ toxicity – repeated exposure category 2 STOT SE 3: Specific target organ toxicity – single exposure category 3 PBT: Persistent, bioaccumulative and toxic vPvB: Very persistent and very bioaccumulative. IVIS: In vitro irritancy score.

The information in this Safety Data Sheet (SDS) is to the best of our knowledge true and accurate but all data instructions, recommendations and/or suggestions are made without guarantee.

Since the use of this information and the conditions of use of the product are not within the control of Flavour Warehouse Ltd, trading as Vampire Vape, it is the user's obligation to determine conditions of safe use of the product.

This product should be store, handled and used in accordance with good industrial hygienic practices and in conformity with any legal regulation. The above information is based on the present state of our knowledge of the product at the time of publication. The user must satisfy himself that the product is entirely suitable for his purpose.

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable Extinguishing Media: Carbon dioxide, Alcohol foam, dry chemical or water spray/mist.

Unsuitable Extinguishing Media: None

5.2 Special hazards arising from the substance or mixture

During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion.

5.3 Advice for fire-fighters

Wear full protective clothing and self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent).

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency measures

6.1.1 For non-emergency personnel

- Wear proper personal protective equipment as stated in section 8.
- Avoid breathing vapours, mist or gas. Do not ingest.
- Avoid contact with skin and eyes.
- Eliminate all sources of ignition and ensure adequate ventilation of area.
- Beware of vapours accumulation to form explosive concentrations.
- Vapours can accumulate in low areas.
- For details of protective equipment, see Section 8.

6.1.2 For emergency responders

- Wear self-contained breathing apparatus.
- Wear full protective clothing.
- For details of protective equipment, see Section 8.

6.2 Environmental precautions

- Prevent further leakage or spillage if safe to do so.
- Prevent spills or contaminated rinse water from entering sewers or watercourses.

6.3 Methods and material for containment and cleaning up

6.3.1 For containment

- Stop leakage if safe to do so.
- In case of small spills, absorb with inert materials such as earth or dry sand then shovel into a chemical waste container.
- In case of large spills, dike the spill, if possible.
- Place any absorbents in suitable chemical waste container.
- Call emergency services if necessary.

6.3.2 For cleaning up

Date of issue: 17 May 2017

Version No.: 2

Revision No.: 1

Absorb the chemical then place in a chemical waste container.

6.4 Reference to other sections

For personal protection, see Section 8. For disposal of waste from clean-up operations, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Wear proper protective equipment and avoid contact with skin, eyes, or clothing. Obtain special instructions before use.
- Avoid inhalation and ingestion.
- Avoid inhalation of vapour or mist.
- When using this product do not eat, drink or smoke.
- Wash hands thoroughly after handling this material.
- Follow all applicable local regulations for handling and storage.

7.2 Conditions for safe storage, including any incompatibilities

- Keep out of reach of children.
- Store in a well ventilated place.
- Keep container tightly closed (air sensitive), in a cool dry place.
- Containers that are opened must be carefully resealed and kept upright to prevent leakage.
- Keep away from heat and sources of ignition.

7.3 Specific end use(s)

None. The material is safe to use as intended.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

8.1.1 Occupational Exposure Limits:

	Partition coefficient (n-octanol/water):	No data available			
	Auto-ignition temperature:	No data available			
	Decomposition temperature:	No data available			
	Viscosity:	No data available			
	Explosive properties:	No data available			
	Oxidising properties:	No data available			

9.2 Other information

No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

Not reactive. Liquid may darken with prolonged storage.

Version No.: 2

Revision No.: 1

10.2 Chemical stability

Stable under normal storage/handling conditions.

- **10.3.1 Possibility of hazardous reactions** Will not occur.
- **10.4 Conditions to avoid** Keep away from heat/sparks/open flames/hot surfaces.
- **10.5** Incompatible materials None.
- **10.6 Hazardous decomposition products** May include, and are not limited to oxides of carbon.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

No data are available for the product therefore available data for the components of the product are provided below.

1272/2008 and Amendments Pinkman 3mg

Acute t	OXICITV:

Nicotine component:	LD50 70mg/kg bw (oral; gavage, female rat, OECD Guideline 425 (Acute Oral Toxicity: Up-and-Down Procedure)).
Glycerin, mist component:	LD50 27200 mg/kg bw (oral; gavage, female rat, standard acute method).
	L(ct)50 (7h) 4655 mg/min/L (inhalation; vapour, whole body, male rat, standard acute method).
	LD50 56750 mg/kg (dermal; semi occlusive, male/female guinea pig, standard acute method).
Skin corrosion/irritation:	
Nicotine component:	Nicotine did not induce excessive local skin
	irritation. (mice, (OECD 429 resp. EU B.42)).
Glycerin, mist component:	Not Irritating (rabbit)
Serious eye damage/ irritation:	
Nicotine component:	Nicotine was shown to have effects on the bovine eye. 29.518 IVIS (EU method B.47 (Bovine corneal opacity and permeability test method for identifying ocular corrosives and severe irritants).
Glycerin, mist component:	Not Irritating (rabbit).
Respiratory or skin sensitisation:	
Respiratory:	No data available.
Skin:	

Pinkman 3mg

	Filikinan Sing

	Version No.: 2
	Revision No.: 1
Nicotine component:	Not sensitising. (Mouse local lymph node assay)
Germ cell mutagenicity:	
Nicotine component:	Negative results. (S. typhimurium TA 1538
	OECD Guideline 471 (Bacterial Reverse Mutation Assay))
Olycoprin mist component:	
Glycerin mist component:	Negative results. (DNA damage &/or repair OECD Guideline 482. Chromosome aberration
	(CHO) OECD guideline 473. Mammalian cell
	gene mutation assay (CHO) OECD guideline
	476).
Carcinogenicity:	
Glycerin, mist component:	Administration for up to two years in the diet did
	not result in an increase in tumor formation. (oral;
	feed, male/female rat)
Reproductive toxicity:	
Glycerin, mist component:	No noted effects on growth, fertility and
	reproductive performance through two
	generations (oral; gavage, male/female rat, 2-
	generation study).
	NOAEL (maternal toxicity/developmental toxicity)
	1310 mg/kg bw/day (oral; gavage, rat). No effects
	in animals or offspring of dams dosed.
STOT-single exposure:	No data available
STOT-single exposure.	
STOT-repeated exposure:	
Glycerin, mist component:	NOAEL 8000-10000 mg/kg bw (oral; feed,
	male/female rat, 48m).
	NAOEL 167 mg/m3 air (inhalation; vapour, nose
	only, male/female rat, 13w). Local irritant effects in the upper respiratory tract.
Aspiration hazard:	No data available.
11.2 Other information:	None

SECTION 12: Ecological information

12.1 Toxicity

No data are available for the product therefore available data for the components of the product are provided below.

Hazards to aquatic environment (acute): Nicotine component: EC50 0.242mg/L (48h: Daphnia magna)

Pinkman 3mg

Date of issue: 17 May 2017

1

Version No.: 2

Revision No.:

LC50 54000 mg/L (96h: Oncorhynchus mykiss);

LC50 1955 mg/L (48h: Daphnia magna)

Readily biodegradable. The degree of biodegradation reached 71% after 28 days. Readily biodegradable: Nearly completely

degraded within 24 hours).

Glycerin, mist component:

12.2 Persistence and degradability Nicotine component:

Glycerin, mist component:

12.3 Bioaccumulative potential No data available.

12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment

An assessment has not been conducted on the product. However, there are no indications that this product contains substances likely to be classified as PBT or vPvB.

12.6. Other adverse effects

No data available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

13.1.1 Residual wastes

Dispose of in accordance with local/national regulations.

Avoid disposing into drainage systems and into the environment.

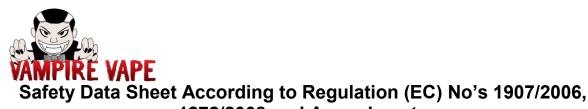

This combustible material may be burned in a chemical incinerator equipped with afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to a dispose of this material.

13.1.2 Contaminated containers and packaging

Dispose of soiled containers in accordance with local/national regulations.

13.2 Other information: None

SECTION 14: Transport information		
14.1	UN Number:	Not applicable
14.2	UN proper shipping name:	Not applicable
14.3	Transport hazard class(es):	Not applicable
14.4	Packing group:	Not applicable
14.5	Environmental hazards:	Not applicable

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out for this product.

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3:

H301: Toxic if swallowed

H310: Fatal in contact with skin.

H311: Toxic in contact with skin

H411: Toxic to aquatic life with long lasting effects.

Methods of evaluation:

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.

SECTION 2: Hazards identification

This product is classified as "Hazardous" according to Regulation (EC) No 1272/2008 and its amendments.

- 2.1 Classification of the substance or mixture
- 2.1.1 Classification according to Regulation (EC) No 1272/2008 (including amendments): Acute Tox. 3, H311

2.2 Label elements:

Labelling according to Regulation (EC) No 1272/2008 [CLP]:

Hazard pictograms: Signal word:

- Version No.: 2
- Revision No.: 1

Hazard statements:	H311: Toxic in contact with skin
Precautionary statements: Prevention:	P280: Wear protective gloves/protective clothing/eye protection/face protection.
Response:	 P302 + P352: IF ON SKIN: Wash with plenty of soap and water. P312: Call a POISON CENTER or doctor/physician if you feel unwell. P322: Specific measures (see advice on this label). P363: Wash contaminated clothing before reuse.
Storage: Disposal:	P405: Store locked up. P501: Dispose of contents/container in accordance to local/national regulations.

1272/2008 and Amendments Pinkman 6mg

For full H-Statements regarding this product refer to Section 16.

2.3 Other hazards:

None

2.4 Additional information:

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

Description of mixture: E-Liquid for electronic cigarettes, consumer use. Hazardous ingredients:

EC Number	EC Name	Weight % Content	Classification according to Regulation (EC) No 1272/2008 (CLP)
200-193-3	Nicotine	[X]	Acute Tox. 3, H301 Acute Tox 1, H310 Aquatic Chronic 2, H411

For the full text of the H-statements, see Section 16.

Ingredients not listed are either classified as non-hazardous or are present at concentrations below reportable levels.

1272/2008 and Amendments Pinkman 6mg

Date of issue: 17 May 2017

- Version No.: 2
- Revision No.: 1

No REACH registration numbers are provided either because the mixture contains preregistered phase-in substances and the transition period for their registration according to Article 23 of REACH has not yet expired or because the annual tonnages do not require a REACH registration.

SECTION 4: First aid measures

4.1 Description of first aid measures

- Ingestion: DO NOT induce vomiting. Never give anything to an unconscious person. Rinse mouth with water. Get medical advice/attention should symptoms appear.
- **Skin contact:** Immediately flush skin with plenty of soap and water whilst removing contaminated clothing. Seek medical attention if irritation persists.
- **Eye contact:** Immediately flush eyes (holding eyelids apart) with plenty of water for at least 15 minutes. Seek medical attention if irritation persists.
- Inhalation: Remove from exposure site to fresh air and keep at rest. If breathing has stopped give artificial respiration. Observe for possible delayed reaction. Get medical advice/attention if concerned.
- **Protection:** Avoid skin/eye contact/inhalation and ingestion during treatment process.

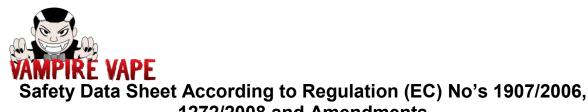

4.2 Most important symptoms and effects, both acute and delayed

General advice:	Consult a physician. Show this safety data sheet to medical personnel.
Ingestion:	May cause stomach distress, nausea or vomiting. If ingested, immediately call a poison control centre or doctor.
Skin contact:	May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
Eye contact:	May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Inhalation May cause respiratory tract irritation.

4.3 Indication of any immediate medical attention and special treatment needed.

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

- Version No.: 2
- Revision No.: 1

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable Extinguishing Media: Carbon dioxide, Alcohol foam, dry chemical or water spray/mist.

1272/2008 and Amendments Pinkman 6mg

Unsuitable Extinguishing Media: None

5.2 Special hazards arising from the substance or mixture

During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion.

5.3 Advice for fire-fighters

Wear full protective clothing and self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent).

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency measures

6.1.1 For non-emergency personnel

- Wear proper personal protective equipment as stated in section 8.
- Avoid breathing vapours, mist or gas. Do not ingest.
- Avoid contact with skin and eyes.
- Eliminate all sources of ignition and ensure adequate ventilation of area.
- Beware of vapours accumulation to form explosive concentrations.
- Vapours can accumulate in low areas.
- For details of protective equipment, see Section 8.

6.1.2 For emergency responders

- Wear self-contained breathing apparatus.
- Wear full protective clothing.
- For details of protective equipment, see Section 8.

6.2 Environmental precautions

- Prevent further leakage or spillage if safe to do so.
- Prevent spills or contaminated rinse water from entering sewers or watercourses.

6.3 Methods and material for containment and cleaning up

6.3.1 For containment

- Stop leakage if safe to do so.
- In case of small spills, absorb with inert materials such as earth or dry sand then shovel into a chemical waste container.
- In case of large spills, dike the spill, if possible.
- Place any absorbents in suitable chemical waste container.
- Call emergency services if necessary.

6.3.2 For cleaning up

Version No.: 2

Revision No.: 1

Absorb the chemical then place in a chemical waste container.

1272/2008 and Amendments Pinkman 6mg

6.4 Reference to other sections

For personal protection, see Section 8. For disposal of waste from clean-up operations, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Wear proper protective equipment and avoid contact with skin, eyes, or clothing. Obtain special instructions before use.
- Avoid inhalation and ingestion.
- Avoid inhalation of vapour or mist.
- When using this product do not eat, drink or smoke.
- Wash hands thoroughly after handling this material.
- Follow all applicable local regulations for handling and storage.

7.2 Conditions for safe storage, including any incompatibilities

- Keep out of reach of children.
- Store in a well ventilated place.
- Keep container tightly closed (air sensitive), in a cool dry place.
- Containers that are opened must be carefully resealed and kept upright to prevent leakage.
- Keep away from heat and sources of ignition.

7.3 Specific end use(s)

None. The material is safe to use as intended.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

8.1.1 Occupational Exposure Limits:

CAS No.	54-11-5

France: Indicative statutory limit values

- 8.1.2 Biological Limit Value: No data available for the product.
- 8.1.3 PNECs and DNELs:
 - No data available for the product.

8.2 Exposure controls 8.2.1

Appropriate engineering controls

Always provide adequate ventilation where this chemical/material is used.

8.2.2 Individual protection measures, such as personal protective equipment

Respiratory		
protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as CEN (EU). Use only respiratory protection that conforms to EN149 as	
	minimum standard.	
Eye protection:	Face shield and safety glasses or goggles EN166 as minimum standard.	
Skin protection:	 Handle with gloves, EN374 as minimum standard. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and 	
Hygiene measures:	amount of the dangerous substance at the specific workplace. Provide good personal hygiene after handling. Avoid contact with skin, eyes and clothing.	

- Version No.: 2
- Revision No.: 1

Wash hands before breaks and immediately after handling the product.

Do not eat, drink or smoke whilst using this product

Pinkman 6mg

8.2.3 Environmental exposure controls

Do not allow to enter drains, sewers or watercourses.

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties			
	Appearance:	Liquid		
	Colour:	Pink		
	Odour:	No data available

12.5. Results of PBT and vPvB assessment

An assessment has not been conducted on the product. However, there are no indications that this product contains substances likely to be classified as PBT or vPvB.

12.6. Other adverse effects

No data available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods

13.1.1 Residual wastes

Dispose of in accordance with local/national regulations.

Avoid disposing into drainage systems and into the environment.

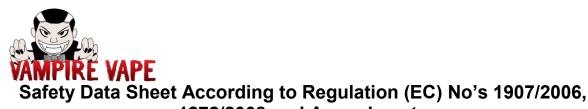

This combustible material may be burned in a chemical incinerator equipped with afterburner and scrubber. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to a dispose of this material.

13.1.2 Contaminated containers and packaging

Dispose of soiled containers in accordance with local/national regulations.

13.2 Other information: None

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out for this product.

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3:

H301: Toxic if swallowed

H310: Fatal in contact with skin.

H311: Toxic in contact with skin

H411: Toxic to aquatic life with long lasting effects.

Methods of evaluation:

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.

SECTION 2: Hazards identification

This product is classified as "Hazardous" according to Regulation (EC) No 1272/2008 and its amendments.

- 2.1 Classification of the substance or mixture
- 2.1.1 Classification according to Regulation (EC) No 1272/2008 (including amendments): Acute Tox. 3, H311

2.2 Label elements:

Labelling according to Regulation (EC) No 1272/2008 [CLP]:

Hazard pictograms: Signal word:

Version No.: 2

Revision No.: 1

Hazard statements:	H311: Toxic in contact with skin
Precautionary statements: Prevention:	P280: Wear protective gloves/protective clothing/eye protection/face protection.
Response:	 P302 + P352: IF ON SKIN: Wash with plenty of soap and water. P312: Call a POISON CENTER or doctor/physician if you feel unwell. P322: Specific measures (see advice on this label). P363: Wash contaminated clothing before reuse.
Storage: Disposal:	P405: Store locked up. P501: Dispose of contents/container in accordance to local/national regulations.

1272/2008 and Amendments Pinkman 12mg

For full H-Statements regarding this product refer to Section 16.

2.3 Other hazards:

None

2.4 Additional information:

The mixture was classified using data available for the neat substances with the application of relevant concentration limits, in accordance with Regulation (EC) No 1272/2008.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

Description of mixture: E-Liquid for electronic cigarettes, consumer use. Hazardous ingredients:

EC Number	EC Name	Weight % Content	Classification according to Regulation (EC) No 1272/2008 (CLP)
200-193-3	Nicotine	1.2	Acute Tox. 3, H301 Acute Tox 1, H310 Aquatic Chronic 2, H411

For the full text of the H-statements, see Section 16.

Ingredients not listed are either classified as non-hazardous or are present at concentrations below reportable levels.

Pinkman 12mg

Date of issue: 17 May 2017

- Version No.: 2
- Revision No.: 1

No REACH registration numbers are provided either because the mixture contains preregistered phase-in substances and the transition period for their registration according to Article 23 of REACH has not yet expired or because the annual tonnages do not require a REACH registration.

SECTION 4: First aid measures

4.1 Description of first aid measures

- Ingestion: DO NOT induce vomiting. Never give anything to an unconscious person. Rinse mouth with water. Get medical advice/attention should symptoms appear.
- **Skin contact:** Immediately flush skin with plenty of soap and water whilst removing contaminated clothing. Seek medical attention if irritation persists.
- **Eye contact:** Immediately flush eyes (holding eyelids apart) with plenty of water for at least 15 minutes. Seek medical attention if irritation persists.
- Inhalation: Remove from exposure site to fresh air and keep at rest. If breathing has stopped give artificial respiration. Observe for possible delayed reaction. Get medical advice/attention if concerned.
- **Protection:** Avoid skin/eye contact/inhalation and ingestion during treatment process.

4.2 Most important symptoms and effects, both acute and delayed

General advice:	Consult a physician. Show this safety data sheet to medical personnel.
Ingestion:	May cause stomach distress, nausea or vomiting. If ingested, immediately call a poison control centre or doctor.
Skin contact:	May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.
Eye contact:	May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Inhalation May cause respiratory tract irritation.

4.3 Indication of any immediate medical attention and special treatment needed.

Symptoms may not appear immediately. In case of accident or if you feel unwell, seek medical advice immediately (show the label or SDS where possible).

Pinkman 12mg

Date of issue: 17 May 2017

- Version No.: 2
- Revision No.: 1

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable Extinguishing Media: Carbon dioxide, Alcohol foam, dry chemical or water spray/mist.

Unsuitable Extinguishing Media: None

5.2 Special hazards arising from the substance or mixture

During a fire, irritating and toxic gases may be generated by thermal decomposition or combustion.

5.3 Advice for fire-fighters

Wear full protective clothing and self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent).

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency measures

6.1.1 For non-emergency personnel

- Wear proper personal protective equipment as stated in section 8.
- Avoid breathing vapours, mist or gas. Do not ingest.
- Avoid contact with skin and eyes.
- Eliminate all sources of ignition and ensure adequate ventilation of area.
- Beware of vapours accumulation to form explosive concentrations.
- Vapours can accumulate in low areas.
- For details of protective equipment, see Section 8.

6.1.2 For emergency responders

- Wear self-contained breathing apparatus.
- Wear full protective clothing.
- For details of protective equipment, see Section 8.

6.2 Environmental precautions

- Prevent further leakage or spillage if safe to do so.
- Prevent spills or contaminated rinse water from entering sewers or watercourses.

6.3 Methods and material for containment and cleaning up

6.3.1 For containment

- Stop leakage if safe to do so.
- In case of small spills, absorb with inert materials such as earth or dry sand then shovel into a chemical waste container.
- In case of large spills, dike the spill, if possible.
- Place any absorbents in suitable chemical waste container.
- Call emergency services if necessary.

6.3.2 For cleaning up

1272/2008 and Amendments Pinkman 12mg

Date of issue: 17 May 2017

Version No.: 2

Revision No.: 1

Absorb the chemical then place in a chemical waste container.

6.4 Reference to other sections

For personal protection, see Section 8. For disposal of waste from clean-up operations, see Section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- Wear proper protective equipment and avoid contact with skin, eyes, or clothing. Obtain special instructions before use.
- Avoid inhalation and ingestion.
- Avoid inhalation of vapour or mist.
- When using this product do not eat, drink or smoke.
- Wash hands thoroughly after handling this material.
- Follow all applicable local regulations for handling and storage.

7.2 Conditions for safe storage, including any incompatibilities

- Keep out of reach of children.
- Store in a well ventilated place.
- Keep container tightly closed (air sensitive), in a cool dry place.
- Containers that are opened must be carefully resealed and kept upright to prevent leakage.
- Keep away from heat and sources of ignition.

7.3 Specific end use(s)

None. The material is safe to use as intended.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

8.1.1 Occupational Exposure Limits:

CAS No.	54-11-5				
Substance	Nicotine				
	Limit value - Eight hours		Limit value - Short term		
	ppm	mg/m³	ppm	mg/m³	
France		0.5			
Germany (AGS)		0.5 (1)		1 (1)(2)	
United Kingdom		0.5		1.5	

France : Indicative statutory limit values

Germany (AGS) (1) Inhalable aerosol and vapour (2) 15 minutes reference period

Pinkman 12mg

Date of issue: 17 May 2017

- Version No.: 2
- Revision No.: 1

CAS No.	56-81-5				
Substance	Glycerin, mist				
	Limit value - Eight hours		Limit value - Short term		
	ppm	mg/m³	ppm	mg/m³	
France	-	10	-	-	
Germany (AGS)	-	50 inhalable aerosol	-	100 inhalable aerosol	
United Kingdom	-	10	-	-	

France: Indicative statutory limit values

- 8.1.2 Biological Limit Value: No data available for the product.
- 8.1.3 PNECs and DNELs:
 - No data available for the product.

8.2 Exposure controls 8.2.1

Appropriate engineering controls

Always provide adequate ventilation where this chemical/material is used.

8.2.2 Individual protection measures, such as personal protective equipment

Respiratory	
protection:	Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as CEN (EU). Use only respiratory protection that conforms to EN149 as
	minimum standard.
Eye protection:	Face shield and safety glasses or goggles EN166 as minimum standard.
Skin protection:	 Handle with gloves, EN374 as minimum standard. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and
Hygiene measures:	amount of the dangerous substance at the specific workplace. Provide good personal hygiene after handling. Avoid contact with skin, eyes and clothing.

- Version No.: 2
- Revision No.: 1

Wash hands before breaks and immediately after handling the product.

Do not eat, drink or smoke whilst using this product

1272/2008 and Amendments Pinkman 12mg

8.2.3 Environmental exposure controls

Do not allow to enter drains, sewers or watercourses.

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties				
	Appearance:	Liquid			
	Colour:	Pink			
	Odour:	No data available			
	Odour threshold:	No data available			
	pH:	No data available			
	Melting/freezing point:	No data available			
	Initial boiling point and boiling				
	range:	No data available			
	Flash point:	No data available			
	Evaporation rate:	No data available			
	Flammability:	No data available			
	Upper/lower flammability or				
	explosive limits:	No data available			
	Vapour pressure:	No data available			
	Vapour density:	No data available			
	Relative density (water=1):	No data available			
	Solubility(ie's):	No data available			
	Partition coefficient (n-octanol/water):	No data available			
	Auto-ignition temperature:	No data available			
	Decomposition temperature:	No data available			
	Viscosity:	No data available			
	Explosive properties:	No data available			
	Oxidising properties:	No data available			

9.2 Other information

No data available

SECTION 10: Stability and reactivity

10.1 Reactivity

Not reactive. Liquid may darken with prolonged storage.

Version No.: 2

Revision No.: 1

10.2 Chemical stability

Stable under normal storage/handling conditions.

- **10.3.1 Possibility of hazardous reactions** Will not occur.
- **10.4 Conditions to avoid** Keep away from heat/sparks/open flames/hot surfaces.
- **10.5** Incompatible materials None.
- **10.6 Hazardous decomposition products** May include, and are not limited to oxides of carbon.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

No data are available for the product therefore available data for the components of the product are provided below.

1272/2008 and Amendments Pinkman 12mg

Acute t	OXICITV:

Nicotine component:	LD50 70mg/kg bw (oral; gavage, female rat, OECD Guideline 425 (Acute Oral Toxicity: Up-and-Down Procedure)).
Glycerin, mist component:	LD50 27200 mg/kg bw (oral; gavage, female rat, standard acute method).
	L(ct)50 (7h) 4655 mg/min/L (inhalation; vapour, whole body, male rat, standard acute method).
	LD50 56750 mg/kg (dermal; semi occlusive, male/female guinea pig, standard acute method).
Skin corrosion/irritation:	
Nicotine component:	Nicotine did not induce excessive local skin
	irritation. (mice, (OECD 429 resp. EU B.42)).
Glycerin, mist component:	Not Irritating (rabbit)
Serious eye damage/ irritation:	
Nicotine component:	Nicotine was shown to have effects on the bovine eye. 29.518 IVIS (EU method B.47 (Bovine corneal opacity and permeability test method for identifying ocular corrosives and severe irritants).
Glycerin, mist component:	Not Irritating (rabbit).
Respiratory or skin sensitisation:	
Respiratory:	No data available.
Skin:	

Pinkman 12mg

	E I	inkinan izing
		Date of issue: 17 May 2017
		Version No.: 2
		Revision No.: 1
	Nicotine component: I mutagenicity:	Not sensitising. (Mouse local lymph node assay)
Nicotine c	component:	Negative results. (S. typhimurium TA 1538
		OECD Guideline 471 (Bacterial Reverse Mutation Assay))
Glycerin r	nist component:	Negative results. (DNA damage &/or repair
		OECD Guideline 482. Chromosome aberration
		(CHO) OECD guideline 473. Mammalian cell gene mutation assay (CHO) OECD guideline
		476).
Carcinog	-	
Glycerin,	mist component:	Administration for up to two years in the diet did
		not result in an increase in tumor formation. (oral; feed, male/female rat)
		iecu, maichemaic raty
Reproduc	ctive toxicity:	
Glycerin,	mist component:	No noted effects on growth, fertility and
		reproductive performance through two
		generations (oral; gavage, male/female rat, 2- generation study).
		NOAEL (maternal toxicity/developmental toxicity)
		1310 mg/kg bw/day (oral; gavage, rat). No effects
		in animals or offspring of dams dosed.
STOT-sin	igle exposure:	No data available
STOT-rer	peated exposure:	
	mist component:	NOAEL 8000-10000 mg/kg bw (oral; feed,
-		male/female rat, 48m).
		NAOEL 167 mg/m3 air (inhalation; vapour, nose
		only, male/female rat, 13w). Local irritant effects in the upper respiratory tract.
		in the upper respiratory tract.
Aspiratio	n hazard:	No data available.
11.2 Other infe	ormation:	None

SECTION 12: Ecological information

12.1 Toxicity

No data are available for the product therefore available data for the components of the product are provided below.

Hazards to aquatic environment (acute): Nicotine component: EC50 0.242mg/L (48h: Daphnia magna)

Pinkman 12mg

Date of issue: 17 May 2017

Version No.: 2 Revision No.: 1 LC50 54000 mg/L (96h: Oncorhynchus mykiss); LC50 1955 mg/L (48h: Daphnia magna)

> Readily biodegradable. The degree of biodegradation reached 71% after 28 days. Readily biodegradable: Nearly completely degraded within 24 hours).
